## The Outlaw Clans- Backstory (One-Shot)

**\*\*This is a backstory for the clans in our RP.\*\***

[myforums/SageandSky/7621330/](http://myforums/SageandSky/7621330/)

Nightclan, the most dangerous clan. That's a little bit of an over statement. Yeah sure, Nightclan, led by Nightwing, have the most fiercest reputation of the new clans. And yes we're known as the shadow hunters for a reason, but that doesn't mean we're tough. We don't have enough warriors to battle the softest clan, Leafclan. My name is Robin and I'm a Claw so yep my name is Robinclaw and I'm Nightwing's sister. You may think, 'oh Nightwing is the one to make the clan because the clan is Nightclan,' no not really. It was actually my mother Midnightwing, that was no joke her warrior name. Oh before I continue a little history of the outlaw clans. Midnightwing and Thrushclaw were cats from different clan, but when Shadowclan found out that Midnightwing was Thrushclaw's mate they exiled her. She realized she couldn't live without the support of the clan. She created the outlaw clans. Yep one cat created four clans. Then she gathered rouges, loners, kittypets, and other clan cats to join her. She split the group based on their appearances and talents. All sneaky and dark pelted cats went with Midnightwing to the marshy birch forest and created Nightclan. All the mixed pelted, calico, tortoiseshell, ect, petite cats went to the forest to form Leafclan. All the white, fluffy, hard padded, cats went up north to form Frostclan. All the sandy orange pelted cats who weren't really accepted into the clans went towards the south to form Blazingclan. After awhile Blazingclan started accepting any cat who really didn't fit in. They started to be known as the clan of bitter outcasts.

Midnightwing then had five kits, Night, Leaf, Frost, and Robin. The clans were rioting that they didn't have leaders so Midnightwing parted with her kits. Night became the leader of Nightclan, ect. I, I became the Claw of Nightclan that's what I get for being the runt. I never envy my sisters though, imagine being pulled from your mother, groomed to be a leader since you were two moons old, and taking control of out of control clans, yep no envy here. Oh! You may be wondering about the changed positions, well Midnightwing didn't want it to seem to much like the clans that kicked her out so she changed them. Wing: leader, Claw: deputy, Mint: medicine cat, plus apprentice, warriors have normal warrior names, Tail: apprentices, Heart: forever queens, Nose: kits, Ear: elders. Ex: Nightwing, Robinclaw, Tansymint, Aspenwhisker, Ashtail, Maryheart, Bearnose, Litteear. After everyone was settled Midnightwing moved to Thunderclan to be with her mate Thrushclaw. So what if I have never met him I still have part of his name so I will do my best to honor him as the best Claw.
